Enter the Dragon: Meet the mini and massive Winbo 3D Printers

We've been collaborating with Winbo to bring you TWO NEW printers - one with a small print size and the other was an extraordinary built volume and for a limited time, a special discount!... [Read More](#)

CeBIT 2015 @ Sydney Showground

Thank you to all who came to CeBIT 2015 and came by our stall for a chat. The Flashforge Dreamer and live printing demonstrations with the Printrbots were a huge hit! Among our print displays were the Ford Engine block, the amazing life sized Sabertooth skull, beautiful jewellery from Unellenu and the GE Aviation Jet Engine. The UNSW solar racing team Sunswift were also exhibiting alongside us, and we're excited to announce that we've begun printing the interiors of the car.

Visitors had great fun with the Double Robot, a mobile telepresence device which can be remotely controlled through a range of devices such as the iPad. The Double is perfect for multi-location offices and events, allowing you to attend without actually being there. If you wanted to try it out for yourself, visit our showroom in Alexandria.

Couldn't make it? Click below to see our gallery of the event.

New & Restocked Filaments

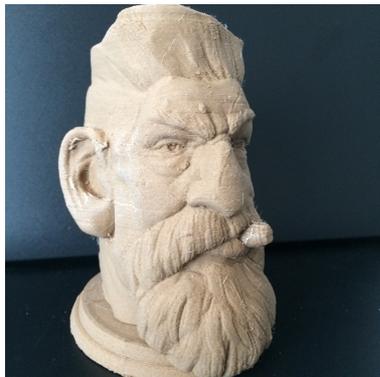

We'd like to apologise for the delayed restock of some our filaments. But we now have the Bilby 3D brand of Wood Filament in stock and a new Light Green PLA filament. Check out the details below.

Light Green PLA 1.75mm Filament \$34.95/ 1kg Spool

This filament's colour is almost a lime green and comes in a 1kg spool measuring 20cm in diameter and has a 5.2cm inner hole. It is suitable for extruding machines like the Makerbots, Printbots, UPs and most modern printers and has a melting point is about 190-230 degrees Celsius.

[ORDER NOW](#)

Bilby 3D's Wood 1.75mm Filament \$64.95/ 1kg Spool

Our own brand of wood filament is made from a mix of wood particles and bio-polymers which can print pieces that look, smell and can be sanded and painted like wood! We have developed this filament so that it is flexible enough to come on a spool, yet stronger so that it does not snap like other brands.

Enter the Dragon: Meet the mini and massive Winbo 3D Printers

We've been collaborating with Winbo to bring you TWO NEW printers - one with a small print size and the other was an extraordinary built volume and for a limited time, a special discount for all upfront pre-orders on the DragonS!

Mini 3D Printer

\$1,339 RRP

Product Code: 3DPWBmini

This is a little printer with a great heart with an Ultimaker like Bowden tube set up.

Specifications

Build Size: 210 x 150 x 150 mm

Layer Height: 0.06-0.4mm (60 - 400 microns)

Printing Speed: 20-150mm/second

Filament: **3mm** PLA, ABS, PETG and Specialty filament

Connectivity: SD Card slot and USB port

Positioning Precision: 0.01mm X and Y axis, 0.002mm Z Axis

Other Features

Backlit Screen with Controller Dial

FREE 700g PLA spool

Heated Bed

SD Card Contains; Manual, Instruction Videos, Sample file and Software (Cura and Configuration file)

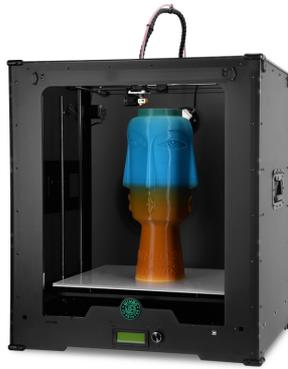

PRE-ORDER NOW

DragonS 3D Printer

\$7,495 RRP

SPECIAL OFFER : \$6,995

Product Code: 3DPWBdragonS

This printer is low on price but great in build size and is very quiet. Although its handling of overhangs is not the best, it certainly makes up for its giant build size. The printer is based on the Ultimaker set up with rods moving the hot end around and a bowden tube back to a fixed extrusion drive.

Specifications

Build Size: 458 x 305 x 508mm

Layer Height: 0.06-0.4mm (60 - 400 microns)

Printing Speed: 50-150mm/sec
(works reasonably at 200mm/s)

Filament: **3mm but tested reasonably with 1.75mm** PLA, ABS, PETG and Specialty filament

Connectivity: SD Card slot and USB port

Positioning Precision: 0.01mm X and Y axis, 0.002mm Z Axis

Other Features

Backlit Screen with Controller Dial

FREE 3kg 3mm PLA Spool

Heated Bed and Removable Glass Bed

Toolkit and Accessories Kit

Clips and Glue stick for Glass Bed

SD Card Contains; Manual, Instruction Videos, Sample file and Software (Cura and Configuration file)

PRE-ORDER NOW

If you have any queries, please don't hesitate to contact us by phone (1800 847 333) or via our email (reception@bilby3d.com.au).

Warm regards,

The Bilby 3D Team
