Bilby 3D is open this Saturday 11th April

For this Saturday only, Bilby 3D's Alexandria showroom will be open **10am-1pm**. This is a great chance for those who can't drop by during the working week.

We are located at:

25/566 Gardeners Road Alexandria, NSW 2015

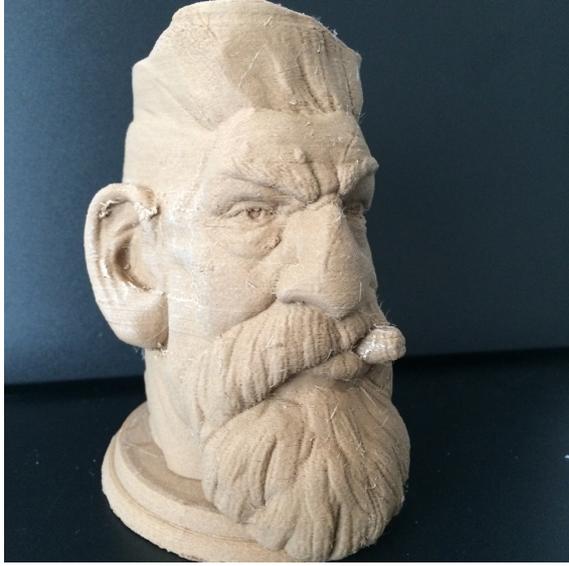

Bilby 3D's own improved WOOD filament

We have developed and tested a fantastic new wood filament which now comes on a spool. Made with a mix of wood particles and bio-polymers, it's **improves upon other wood filaments** with its greater flexibility, ability to be printed with PLA settings and prints warp free on an unheated, blue taped bed.

Once printed, the material smells like real wood and can be sanded and printed the same way as real wood.

\$64.95 gets you a 1kg spool of Bilby 3D's 1.75mm Wood Filament
compared with
\$34.00 for 250g coil of the Cherry Wood filament.

Psst! Carbon fibre filament is in the works...

Upcoming Events

CeBit Australia
5th-7th May 2015
Stand L32
Sydney Olympic Park

Bilby 3D will be exhibiting at **Australia's largest business technology expo** this year. Come visit our stand at L32 and see **the latest 3D printing technologies and techniques**.

Also present will be the **sUNSWift solar racing team**, whom Bilby 3D are supporting by printing the interior of Eve, the solar passenger car.

Claim your **FREE ticket** to this exciting event **before the 17th of April** by clicking the image below.
