Buy 4 Get 5 Rolls of Filament!

It's simple really.

Buy 4 filament spools, get one free!

BUT YOU HAVE TO USE THE SPECIAL ORDER FORM!

Just select the 4 paying filaments from the drop down and then choose any \$39.95 or cheaper filament for free. . . Been thinking about experimenting with Wood or Brick...why not get one for free during

New Cream tape in stock and Soooooo much better than Blue tape!

This special tape is far superior to the standard blue tape we have all been using for so long.

The adhesive is much stronger, so it will not lift up and allow prints to warp like the old blue tape. It also has a coated surface that makes PLA stick even better! Plus it is more heat resistant also

But best of all we have been able to come to a deal with 3M so that we can get it **even cheaper than the Blue Tape!** So it is Win, Win, Win.

We have been using this for a while now and it is so much stronger that we hardly ever have to change the tape on the

3D Innovation Awards!

Get your entries in now!

This is a national awards program for Australian businesses utilizing 3D printing to create end user products, or change traditional manufacturing techniques. It is an opportunity for innovative people to showcase the exciting things they are doing with this new technology. **Entries close 30 October, so stop waiting time and enter you talented people!**

["How To Enter" Information](#)

bed, and have never seen the tape pull up off the bed like we saw so often on big prints with the blue tape. We just wipe it with acetone every now and again to keep it clean and oil free.
