# Bilby 3D's Courses and Workshops for all skill levels.

Join one now!

## Advanced Makerbot Replicator 2 Training

Exclusively created for Makerbot Replicator 2/2x owners, this course will give you the skills to:

- Understand the function of each component of your machine
- Diagnose and Troubleshoot basic problems
- Perform a full machine tune and service
- Upgrade and Mod your machine for better performance

You will also receive a complimentary Tune and Service Take Home Pack with ceramic tape, sample sheets, a thermo coupler, samples of the latest filaments and course notes.

### Upcoming Sessions:

18th Feb 2015, 1pm-4pm ([Book Now](#))

19th Mar 2015, 6pm-9pm ([Book Now](#))

### Cost

\$200 incl. Tune and Service Take Home Pack

### CORPORATE DISCOUNT

Additional participants from the same organisation are only  
**\$85/person.**

## FreeCAD for 3D Printing

Mechanical designer and experienced CAD professional, Chris Bilby will show you the basic functions of the FREE parametric modeller, FreeCAD.

Chris will talk you through the basic and advanced shapes and their uses, including:

- placing and combining shapes
- boolean functions, fillets and chamfers
- work arounds for some of the bugs and glitches still in the software

In the second part Chris will teach you how to export models and discuss how you can design and print models with ease and accuracy.

Topics in this section include:

- Fused Deposition Modelling printers: tolerances for tight and running fits
- finishing techniques to clean up the model for testing and stakeholder demonstration

### Upcoming Sessions:

10th Mar 2015, 5:40pm-7:30pm ([Book Now](#))

### Cost

General Admission: FREE

GA + Course Notes: \$15

Places are **very limited**, as our class sizes are small to give you the best experience possible.

---

## Check out our other meet ups!

### 3D Hubs Sydney Meet Up

Everyone is welcome, whether you are currently 3D printing, looking for a 3D printer, building 3D printers,

distributing 3D printers, etc. This will be a great opportunity to meet other enthusiasts, get troubleshooting help, and network with others in the industry for pointers and tips.

Feel free to bring your best prints with you and a bring a friend or guest who is also interested in 3D printing. Let's share some light refreshments, some conversation, and move this industry forward together!

Meet Ups happen on the last Thursday of each month.

Upcoming Meet Ups:

26th Feb 2015, 4pm-6pm

26th Mar 2015, 4pm-6pm

30th May 2015, 4pm-6pm

Follow us at [3D Hubs](#).

For more information on our courses visit our [website](#) or [Eventbrite page](#).

Interested in a course but don't see it scheduled? Contact us [here](#) to register your interest.

Hope to see you there!
