# Last Chance

## to buy Makerbot machines at pre-increase prices

Dear <<First Name>>,

This is your last chance to snag Makerbot machines and consumables before the the price increases.

As you may have been aware, Makerbot has restructured the Australian distribution channel, appointing Alloys International to act on their behalf as "Makerbot Australia". As a result of this restructuring, the Australian RRP has risen dramatically.

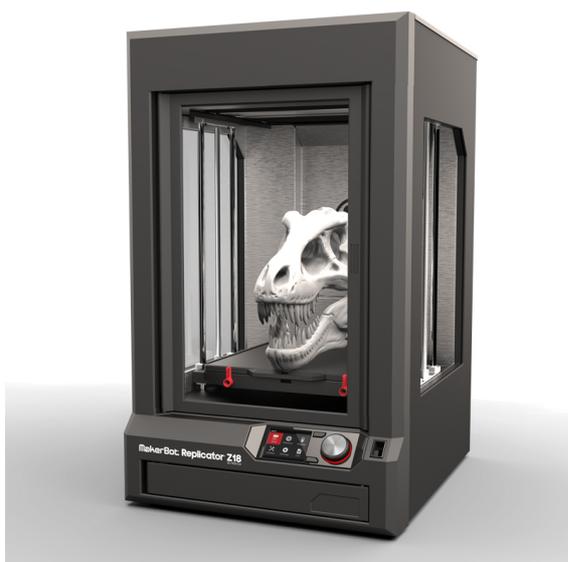

From the **25th of March onward, Makerbot printers will raise considerably (up 15-40%)** throughout Australia due to Makerbot's new price structure and the exchange rate fluctuations.

We are not happy with this change and hope that you understand that we had no choice or control over the restructuring. **To ease this transition, Bilby 3D will like to offer you some [short term discounts on Makerbot machines](#) and more [permanent low prices on Bilby 3D consumables](#).** The discounts will only be valid until **25th of March 2015**.

The followings changes are as below:

	Bilby 3D's RRP Before Change	New RRP	Price Difference
<b>Machines</b>			
Z18	\$10250	\$12094.50	+ \$1844.50
